### THE DEATH OF JOHN TABER.

John Taber, an excellent and genial gentleman, who was employed in the news room of The Constitution office last summer.

The Chattanooga Times, referring to his death, says: John Taber, a printer, who has been connected with the Times office about a year, died yesterday morning, at the hospital, of yellow fever. He went a few miles into the country last Thursday, and was taken sick Friday evening. There was so much alarm among the country people over his sickness that it was thought best to bring him into the city, which was done Sunday, and he was taken to the hospital under the care of Dr. Mullins. But had fastened upon him, and the best of care could do nothing. Mr. Taber was born in Huntsville, Alabama, forty-six years ago. He followed the printing business for some time, his life being spent with Butch P. Anderson, who lately died of yellow fever, in publishing a paper in Helena, Ark. He also published a paper in Knoxville. His professional ability was an excellent printer, a pleasant genial young-hearted man, one who did harm to many living men. Like all of us, he may have had his faults, but such were there with him, and only reinforce the much good there was in him. Mr. Taber was married to a girl from New York, and his wife died about a year after the marriage, leaving an infant daughter, who has since grown to womanhood. He never married again, but devoted his whole affection to his child. He died yesterday, when she had refused at the breaking out of the fever, when he was overtaken by the dread destroyer.

ATLANTA, GA., OCTOBER 17, 1878.

COL. HAMMOND has been absent since  
Monday in the district, filling appointments  
previously made.

GEN. GORDON will speak at Calhoun to-  
day; at Decatur on the 30th inst.; near Smyrna, in Cobb county, on the 19th inst.; at Gainesville on Monday, the 21st.

GOV. COLQUITT has been invited by the  
Democrats of Pennsylvania to come to that  
state to speak in the campaign going on there.  
He declined, as his official duty would not permit him to leave the state of  
Georgia at present.

The United States supreme court is  
three years behind, and there is no hope  
of relief short of an intermediate court  
such as Senator Davis proposes. The  
justices work eleven months in the year,  
but the cases on the docket are increased  
every year. The country has outgrown  
the capacity of the court.

ALL the world and the rest of mankind  
is waiting for Mr. Tilden's public dis-  
claimer of the cipher-dispatch business.  
Silence under the circumstances is, of  
course, out of the question, and a doc-  
ument that will go far toward making or  
breaking its distinguished author may  
therefore be expected daily.

MRS. FERNANDO WOOD has lifted the  
pressure no little by an assurance that  
his tariff-revision bill will not be pressed  
during the short session. The mass of  
jobs that is called "the tariff" does re-  
sion from top to bottom; but it would  
be unwise to block the necessary business  
of the coming session with a measure  
that could not be matured on account of  
the opposition it would encounter.

COMMISSIONER RAUM, of the internal  
revenue bureau, has immortalized himself.  
He has perpetuated the meaningless  
title of "esp." by ordering all his  
subordinates to swing it on the tail end  
of the name of any person they officially  
address in writing. This is an innovation,  
but it scarcely rises to the height of revolu-  
tion. The public will survive, but "Raum"  
will not live to hear the last of his famous order.

COL. ARNOLD speaks of the vile insur-  
ance companies who rob our people.  
He borrows money from an insurance  
company in 1871, and after keeping it  
in his safe, they bring suit on the note.  
He pleads usury, and wants to sue the  
debt because he borrowed greenbacks  
and they have appreciated in value,  
and calls it robbery. We would like to hear  
what the insurance companies think of Col.  
Arnold's conduct.

THIS is a week of views, and Stanley  
Matthews is one of those who have just  
been delivered of a lot of them. He be-  
lieves that Mr. Thurnau occupies the  
anomalous position of not being soft  
enough for the greenbackers nor hard  
enough for the hard-money wing of his party.  
As far as the national banks are concerned,  
this is certainly a mistake. Scarcey  
Chattanooga is situated in a valley in  
which malarial fevers have been by no  
means unknown. The city itself has  
been kept in a cleaner condition than  
it should be. At the end of an extremely  
hot summer the fever obtained a foot-  
hold in it. We see nothing in all this to  
disprove the elevation theory. A hot  
summer has carried an unusually malignant  
type of the disease about one hundred  
feet above its former limits—that is, if  
this does not prevail—it can become  
epidemic at any higher point; for if  
at the end of this year's August the poison  
of Chattanooga, which is only 600 feet above  
the sea level, sufficient to refute the entire  
history of the disease in relation to elevation  
in this country?

SCARCEY RAYNS is very complacent  
now. He thinks he has spelled Thurnau  
to the foot of the class of '80.

THE COVINGTON STAR insists upon having  
it understood that it long ago nominated  
Thurnau for president in 1880.

THE POOR'S CHIEF of police says  
that there is a "growing disposition on the part  
of some of our citizens to dissipation."

HON. A. H. SPRINGER is to speak  
to the public on the subject of "How  
to Discard the Elevation Theory."

Poor Cronin! The place that knew him  
once more him no more.

NEWTON COUNTY is still exempt from the  
hand-shaking disabilities. Happy people!

GENERAL GORDON spoke at Hampton yes-  
terday, and is now on his way to renew the  
canvass of his district.

SCARCEY RAYNS is very complacent  
now. He thinks he has spelled Thurnau  
to the foot of the class of '80.

## ROUNDABOUT IN GEORGIA.

Lumpkin has a negro with ears like an elephant.

The Sandersville fair is in full blast and is a success.

Gordon county is full of Lester clubs and they are not satisfied clubs either.

Mr. Henry Camp, of Covington, says that many negroes are burned because the house-hands are too tight.

The New York Express alludes to Hayne, of South Carolina, as the "namesake" of Paul Hayne. A good many American editors want to kill him.

A Gordon county man shot a negro the other day because the latter would not give for his wife. If the man is caught he will probably have a dance that will last him a long time.

Sophorus Brooks, a brilliant young man, who formerly lived in Early county, was assassinated recently in Texas. He was a prosecuting attorney for the county in which he was killed.

The Louisville News and Farmer says there have been two burnings in Jefferson county. On the 28th of September the house of Mr. John Scott was destroyed by fire. On the 2d of October the gin, guns and fixtures of J. G. Jordan were burned.

It is thought that the dwelling of Mr. Scott caught from a store. Himself and son were working in the field near the house when they saw the fire, but it was too late to save the house or but little in it. Mr. Jordan was ginning himself, and is satisfied that a match set fire to his cotton, which in a little while had the whole house in blaze. There were about ten bales of cotton consumed.

## An Inquiry.

ATLANTA, GA., OCTOBER 16, 1878.

EDATORS CONSTITUTION—Sometime last year I put in your paper that his honor Judge Hilliard, upon my recommendation of the grand jury, appointed three of our citizens as committee to examine into the finances and disbursements and the conduct of business of the county officers.

As we learn that a considerable sum was paid for this investigation, and the matter has come into being of vital interest to the public and to justice, we would like to know if a report has been made by this committee, and if so, why it has not been published.

## A TAX PAYER.

The Ticket-of-Leave Man.

On next Thursday night, two weeks ago, the young men's dramatic club will present "Ticket of Leave," the Ticket-of-Leave Man. In the case of this play the young men's dramatic club has employed some of the best actors and the leading role will be sustained by one of the most famous actors, and the whole play is reported to be one of the best pieces of the season.

We forward to the "Ticket-of-Leave Man" as one of the best dramatic performances of the season.

## SKINNER'S BLOOD.

## UPON WHOSE HEAD DOES IT REST?

Trial of Robert Smith, charged with the Murder of Skinner at the Silver Springs "Ho-  
tel" on the Fourth of July last.

Yesterday in Fulton superior court the cause of

THE STATE VS. ROBERT SMITH.

was taken up. The charge is murder, and the indictment is against Robert Smith as principal, and John Evans as principal in the second degree, for the killing of James J. Skinner on the 4th of July last, at Silver Spring, on the Ponc de Leon line, in this country. The case is one which has excited considerable interest in this community and the trial has been anxiously awaited.

**Some Smith.**

is a young man of rather suspicious history. He bears evidence of somewhat dissipated habits, but is devoid of any indications of viciousness. He is probably another of the favorite examples of intemperance and debauchery, he is not a man to be classed among desperadoes, but a young fellow who has been unfortunate enough to have the freedom to act as he pleases, and who has done a good deal more for the worse to himself than to his own good. He occupies an unfortunate position, and stands before the people to-day to answer their graves.

**A DECIDED GROWTH.**

Mr. Dougherty has found that his store, spacious as it was, could not accommodate his rapidly increasing trade. He, therefore, built up his room an annex forty feet deep and extending through the three stories. With this addition he has the largest room in the building, and is highly思想的. The stock is selected to suit all tastes and demands. The wife of the mechanic and of the dress goods department is the manager of the shop.

He has, therefore, ordered out an entire set of new goods to fit up the new department. His whole force was busied all last night in opening the new goods and arranging them for public sale this morning. The store is now a great center of attraction for the fair week.

**BY TELEGRAPH.**

Mr. Dougerty has found that his store, the largest assortment of Youths', Boys' and Children's at

the wholesale department.

**TRADE.**

In addition to his trade in the city, Mr. Dougerty has a large and growing wholesale trade. He sells goods in three states, and his customers among the most prosperous in the country.

His business is one of the marvels of Atlanta, and he is himself one of the finest types we have to offer.

A city market is much needed in our city.

Pretty cool yesterday morning, was it not?

The street cars run to the fair grounds every evening.

The horses at the fair grounds are taking their work over our excellent track.

Exhibitors are commencing to come in with their exhibits.

The Kirshbaum has had quite an accession of horses since the new management.

Our society editor has buckled on his coat and is going to inform the jury, and in controlling the progress of the case, his eye is solely upon the law and rendering justice and the interests of full and certain justice which the interests of both demand.
